

Necessary Data Layers for the CRMC Rhode Island Ocean Special Area Management Plan (SAMP) 2008 - 2010

- 1. Cable Areas**
- 2. Navigation Areas**
- 3. Airport Buffers**
- 4. Bathymetry Ranges**
- 5. Wind resources**
- 6. Wave resources**
- 7. Glacial Geology**
- 8. State and Federal waters**
9. Commercial Fishing activities (will be presented at March stakeholder meeting)
10. Recreational Fishing activities (will be presented at March stakeholder meeting)
11. Commercial Marine Trades
12. Recreational Marine Trades
13. Other recreational activities (e.g. Diving)
14. Aesthetic Values
15. Visual impacts and aesthetics
16. Other Infrastructure (Submarine cables, dredge sites, military, anchorages)
17. Cultural and archeological resources
18. Marine mammals
19. Sea turtles
20. Avian Species
21. Acoustic noise and electromagnetic effects
22. Primary production and circulation
23. Air Quality and Meteorology
24. Sediment and benthic habitat
25. Fish Habitats
26. Circulation/Currents
27. Water Productivity
