

## **Disclosure Statement – Sept 2009**

The Ocean Special Area Management Plan project has two awards with sole source subcontracts to the company Applied Science Associates (ASA). The URI Office of Research Compliance has reviewed these subcontracts to insure that they are in compliance with URI policy, as Professor Malcolm Spaulding has an ownership interest in Applied Science Associates. The URI Office of Research Compliance has found that the subcontracts are in compliance with URI policy. The two subcontracts awarded to ASA are:

- 1) Subcontract in the amount of \$150,000 for work on the Ecological Service Value Index (ESVI) for the RI Ocean Special Area Management Plan: Model Development and Mapping study led by Annette Grilli of URI Ocean Engineering.
- 2) Subcontract in the amount of \$114,978 and for Engineering and High Resolution Modeling of Meteorological, Hydrodynamic, Wave, and Sediment Processes in the SAMP Study Area awarded led by Stephen Grilli or URI Ocean Engineering.
